## Blue-green algae advisories lifted for 21 North Zone bodies of water

GRANDE PRAIRIE– Recent autumn weather has cooled water temperatures in lakes around Alberta to such an extent that blue-green algae is no longer a concern, including in the waters of 21 North Zone lakes/reservoirs, which had previously been placed under blue-green algae advisory.

As such, effective immediately, Alberta Health Services has lifted the blue-green algae advisories for:

- Baptiste Lake
- Bear Creek and Reservoir
- Beaver Lake
- Calling Lake
- Cross Lake
- Kehewin Lake
- Iosegun Lake
- Lac La Biche Lake
- Lac La Nonne
- Lac Ste. Anne
- Lake Isle
- Long Lake
- Mons Lake
- Moonshine Lake
- Muriel Lake
- Paddle River Dam Reservoir
- Shiningbank Lake
- Snipe Lake
- Swan Lake
- Thunder Lake
- Vincent Lake

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than 3.9 million adults and children living in Alberta. Its mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.
