

NOTICE: Updated Link for Provincial Dyspepsia Primary Care Pathway.

As of June 2024 this pathway has moved to the provincial website for pathways: [Alberta's Pathway Hub](#). It was also reviewed and revised under the auspices of the Digestive Health SCN in 2024, by a multi-disciplinary team led by family physicians and gastroenterologists.

Please go to: www.ahs.ca/assets/info/aph/if-aph-scn-dh-pathway-dyspepsia.pdf for the latest information.

Note: This change is part of broader improvements aimed at simplifying access to clinical, referral, and patient pathways through a centralized platform, supported by a dedicated team for standardized development and maintenance across Alberta.
