

Table 5 – Monitoring Indicators

Table 5: Comparable newborn-infant (including neonatal intensive care unit) indicators available on AHS tableau

	MNCY SCN monitoring indicator	Comparable existing indicator in AHS tableau
1	Percentage of preterm births by gestational age, by location of delivery level 1, level 2, level 3 (neonatal care)	<ul style="list-style-type: none"> Live births by gestational age (GA), preterm live infants (less than 37 weeks) <ul style="list-style-type: none"> Contact Seija Kromm if interested in this indicator
2	Percentage of newborns admitted to neonatal intensive care unit (NICU)	<ul style="list-style-type: none"> Inpatient admissions: program = newborn neonatology <ul style="list-style-type: none"> Contact Seija Kromm if interested in this indicator
3	Rate of neonatal hospital readmission less than 30 days post-discharge following birth	<ul style="list-style-type: none"> Provincial (unplanned) inpatient readmission rates, all causes (tableau): <ul style="list-style-type: none"> Readmit number of days = 30 days Age group = less than 1 year (not neonatal) <ul style="list-style-type: none"> Contact Seija Kromm if interested in this indicator
4	Rate of neonatal hospital readmission less than 7 days post-discharge following birth	<ul style="list-style-type: none"> Provincial (unplanned) inpatient readmission rates, all causes (tableau): <ul style="list-style-type: none"> Readmit number of days = 7 days Age group = less than 1 year (not neonatal) <ul style="list-style-type: none"> Contact Seija Kromm if interested in this indicator
