

**HIV Pre-exposure prophylaxis (PrEP) helps prevent human immunodeficiency virus (HIV) infection in people who are at high risk of acquiring the virus.**

Alberta now covers the cost of HIV PrEP, making it more accessible to those who need it. HIV PrEP is a highly effective strategy for reducing the risk of HIV acquisition in adults who are at high, ongoing risk of infection. Patients must be Alberta residents with a valid Alberta Health Care Insurance Plan card. If the designated prescriber determines the patient is medically eligible, they will be given a prescription for HIV PrEP.

The following is a list of designated PrEP providers located in Alberta. The list will be updated regularly:
