

Primary Health Care Integration Network

The Primary Health Care Integration Network (PHCIN) is focused on improving transitions of care between primary healthcare providers and acute care, emergency departments, specialized services and other community services. This will ensure Albertans get the care and social supports they need in the communities where they live.

Actively broker connections

Actively “broker” connections between PCNs, AHS zones and provincial programs, SCNs™ and other parties with need, expertise or resources related to care coordination and transitions in care.

Patients & their  
Care Partners

[PHC.IntegrationNetwork@ahs.ca](mailto:PHC.IntegrationNetwork@ahs.ca)

What is the  
value/examples?

Coordinated supports that enable partnerships with other providers in the community  
(e.g. Engaged Physician Portal)

Resources to facilitate design, implementation & spread of integration solutions that require PHC involvement  
(e.g. Innovation Hubs within Patients Collaborating with Teams)

More coordinated support to address care transition issues  
(e.g. Kalyna Foot Care Program)

Support to co-develop a partnership with AHS zones, primary care and other community partners  
(e.g. PHC Integrated Geriatrics Services Initiative)

Co-creation of integrated models of care  
in response to identified priorities
