

ACUVANCE® PLUS-W

Safety I.V. Catheter

The Next Generation in Safety...

- Passive technology designed to reduce needlestick injuries by making user safety a natural part of the catheter design
- Safety remains in effect both during and after use
- A smaller, compact design, with no extra steps, makes it easy to use even with difficult patients

Now with the Added Benefits of a WINGED HUB

- Better securement and handling
- Less manipulations of the IV site
