

HIV Pre-exposure prophylaxis (PrEP) helps prevent human immunodeficiency virus (HIV) infection in people who are at high risk of acquiring the virus.

Alberta now covers the cost of HIV PrEP, making it more accessible to those who need it. HIV PrEP is a highly effective strategy for reducing the risk of HIV acquisition in adults who are at high, ongoing risk of infection. Patients must be Alberta residents with a valid Alberta Health Care Insurance Plan card. If the designated prescriber determines the patient is medically eligible, they will be given a prescription for HIV PrEP.

The following is a list of designated PrEP providers located in Alberta. The list will be updated regularly:

Surname	First Name	Phone	City	Clinic Address	Accepting patients Y/N
---------	------------	-------	------	----------------	---------------------------

Please Note: Not all MD/NP PrEP Prescribers are accepting new patients/referrals. Refer to <https://search.cpsa.ca> or <http://www.nurses.ab.ca> for additional information
