

QHI Webinar Series

Shared Learning in Quality &
Patient Safety Education

Care is a Family Affair

November 7, 2018

Care Is a Family Affair highlights the “family” in Patient & Family Centered Care. This PFCC Week feature webinar explores ways to continually improve upon how we

- actively engage patients in identifying who they define as their family and how they would like to be involved as members of the care team;
- adopt practices where families feel comfortable and welcome, and their input is asked for, listened to, and acted upon;
- acknowledge and embrace the diversity of today’s modern families.

By participating in this webinar, you will:

- Hear from keynote presenter Marni Panas who will focus on a broader understanding about what diversity in modern families means in 2018 and beyond, such as what family involvement looks like across generations, cultures, and with families of choice.
- Hear wisdom from the field presenter Sherri Di Lallo share her “Top 5 List” of lessons learned + suggestions for success with implementing Family Presence as the Nurse Coordinator for the Stollery Awasisak Indigenous Health Program.

Time: 12:00 – 1:00 PM

Who Can Attend: *Anyone*

Guest Speakers:

Speaker #1 **Marni Panas** - Senior Advisor, Diversity & Inclusion

Speaker #2 **Sherri Di Lallo** - Indigenous Child Health Nurse Coordinator, Stollery Awasisak Indigenous Health
