| <b>RE:</b>   | <b>Temporary Discontinuation of Neopterin and Tetrahydrobiopterin, CSF Testing</b> |

---

## PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

---

### Key Message

- Due to the closure of the referral laboratory, **Neopterin and Tetrahydrobiopterin, CSF** testing will be temporarily unavailable in Alberta.

### Background

- The current referral laboratory, MNG Laboratories, will close on September 7, 2026. After this date, most tests currently performed by MNG Laboratories will be transitioned to LabCorp laboratories.
- Unfortunately, LabCorp has temporarily discontinued Neopterin/Tetrahydrobiopterin (CSF) testing.
- Until a new referral laboratory is identified, this test will not be available in Alberta.

### How this will impact you

- Neopterin/Tetrahydrobiopterin (CSF) testing is temporarily unavailable in Alberta. Neopterin and Tetrahydrobiopterin, CSF (Referred Test) [LAB9674] will be temporarily deactivated in EPIC effective immediately.

### Action Required

- Until further notice, please do not order Neopterin and Tetrahydrobiopterin, CSF testing. Alternative diagnostic approaches include Neopterin Metabolites, Urine [LAB9612] or molecular genetic testing.

**Effective      September 8, 2026**

### Questions/Concerns

- Dr. Lauren MacNeil, Lab Biochemical Geneticist (Biochemical Genetics Lab, North)
