

Alberta Addiction and Mental Health Research Hub Knowledge Translation Planning Consultation Request

The Research Hub may provide knowledge translation (KT) planning consultations for Research Hub members. The Research Hub will aid project leads and their team in assembling a knowledge translation plan. This will require at least one in-person, virtual, or telephone meeting.

Please email this **completed form and related documents** to AMH.ResearchHub@ahs.ca. We will evaluate this request and notify you of its approval within 3 business days. If approved, we will contact you with additional information.

Project Description

Please include an attachment (1 page maximum) summarizing your project. Include the project title, how this project aligns with Research Hub interests, and its applicability to addiction and mental health.

Additional Information

Please include an attachment (2 page maximum) that includes

- Project timeline
- Project support already in place (*e.g., project team working on evidence synthesis*)
- Has any preliminary KT work been completed? If so, please describe
- Requested resources (*e.g., anticipated time commitment from KT consultant, travel requirements, etc.*)

Supporting Documents

I have attached preliminary KT work (*optional*)

Application Approval – Alberta Addiction and Mental Health Research Hub Use Only

- The project timeline is feasible for the Research Hub
- The project description falls under the mandate of the Alberta Addiction and Mental Health Research Hub
- The project description aligns with Alberta Health Services interests
- Application approved
- Application approved with revisions
